KEY STAFF RESUME

LISA BARRY, LEED AP
Landscape Designer

Delray Marketplace Mixed-Use Development
Palm Beach County, Florida

PROFESSIONAL EXPERIENCE:

After graduating from the University of Guelph in Ontario, Canada in 2004, Ms. Barry travelled the world learning about various urban and rural environments. She landed in South Florida in 2005 as a designer with Land Design South, a landscape architecture and planning firm in West Palm Beach. During her two year tenure, she worked on numerous residential developments, including Gulfstream PUD and Sunterra PUD. Ms. Barry prepared the conceptual site designs and other documents needed to pursue development approvals for the projects from the local government. Additional responsibilities included site analysis and the preparation of due diligence studies for potential projects, and the preparation of applications for future land use amendments and rezoning of properties.

Since joining Urban Design Kilday Studios, Ms. Barry has expanded her professional skills in site planning and development approvals, and has also gained experience in landscape design and construction administration. Residential projects include Aspen Square, a 171 unit multi-family community in Palm Beach County. Her responsibilities included master planning and conceptual design, and development of the final site plan and landscape drawings. Commercial projects include Southern Center, a commercial shopping plaza in Royal Palm Beach. As part of the redevelopment of this outdated retail center, Ms. Barry prepared landscape improvement plans to help revitalize this property. Her current projects include Delray Marketplace, a 320,000 square foot mixed use project in western Delray Beach. This mixed use project includes a pedestrian friendly “main street” and will feature several plazas for community events. Her responsibilities include preparation of the site design and landscape plans for the development, including development of a rural parkway on the periphery.

Ms. Barry is technically proficient in AutoCAD and in graphics design using Adobe programs such as Photoshop, Illustrator and InDesign. Her technical skills in site planning and landscape design are highlighted by her attention to detail and graphic abilities.

EDUCATION:

Graduate of the University of Guelph, 2004, with a B.S. Degree in Landscape Architecture

PROFESSIONAL REGISTRATIONS:

LEED Accredited Professional, July 2008

PROFESSIONAL ASSOCIATIONS:

Member of the American Society of Landscape Architects
